SKILLS

- **Languages:** Python, C, C++, Shell Scripting, Bash, PostgreSQL, Kotlin
- **Frameworks:** HTML and CSS, MongoDB, Flutter, Tkinter, Android Studio
- **Tools/Platforms:** Github, Linux, ESP32, FFmpeg
- **Soft Skills:** Problem-Solving, Teamwork, Adaptability, Time Management

INTERNSHIP

Cybersecurity Intern | [Kerala Cybercrime Police](#)

June 2026 – July 2026

- Gained practical exposure to **Cyber Crime Investigation and Digital Forensics**, connecting academic cybersecurity concepts with real-world law-enforcement investigations.
- Developed knowledge of **digital evidence handling, forensic investigation procedures, networking and Internet infrastructure, cyber laws, and blockchain/cryptocurrency investigation**.
- Worked with/learned about **FTK Imager, Autopsy, Tableau Forensic Imager, Avilla Forensics, TRONSCAN, and Arkham Intelligence** for digital forensic and investigation-related activities.

Cybersecurity Intern | [InternsVeda](#)

January 2026 – February 2025

- Applied cybersecurity concepts through practical tasks involving **ethical hacking, Python programming, Linux scripting, and cybersecurity**.
- Strengthened **problem-solving** and **critical-thinking** abilities by tackling practical programming and cybersecurity challenges.
- Enhanced **Python and Linux scripting proficiency** while applying structured approaches to technical problem-solving and time management

PROJECTS

SkyPrice Chatbot | [AI – Powered Flight Price Chatbot](#)

July 2026

- Architected an AI-powered flight-price chatbot to provide conversational assistance for **flight-price queries and travel planning**.
- Integrated frontend and backend components to connect the chatbot interface with **flight-related services and application logic**.
- Implemented AI-driven features for conversational interaction and flight-price analysis.
- Optimized the user experience by creating an interactive interface for exploring flight information and **price-related insights**.

Binancer Bot | [USDT -M Futures Trading Bot](#)

September 2025

- Engineered a CLI-based automated trading bot for Binance USDT-M Futures **supporting Market, Limit, Grid, TWAP, and Stop-Limit order strategies**.
- Implemented mock trading, **real-time dashboard monitoring, input validation, structured logging, and multi-symbol cryptocurrency support**.
- Applied secure development practices by **managing API credentials through environment variables, validating trading parameters, and incorporating error handling for safer execution and testing**.

CERTIFICATION

- Comptia Network+ Certified | [Comptia](#) April 2026
- Ethical Hacking | [Rising Tech Pro](#) October 2024
- Python with Libraries | [Skillera](#) October 2024
- Linux Commands and Shell Scripting | [Skillera](#) October 2024
- Effective Time Management | [Master Union](#) October 2024

ACHIEVEMENTS

- **Cybersecurity Training and Recognition | [Hacky Security](#)** December 2025
Completed cybersecurity training with Hacky Security, strengthening practical knowledge and awareness of core cybersecurity concepts and industry practices.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.31 Since August 2024
- **Citadel Residential School** Ranni, Pathanamthitta
Intermediate; Percentage: 85.5% July 2023 - March 2024
- **Citadel Residential School** Ranni, Pathanamthitta
Matriculation; Percentage: 91% June 2021 - March 2022
